COMMENTS:	This is the 3RD TIME I have OBJECTED TO this proposal in 15 years. It should <u>NOT</u> be approved due to SAFETY issue and DENSITY issues. The P&Z commission unanimously voted against this change a few months ago and this is only revisiting the same dangerous situation

**COMMENTS:** Good evening my name is Rene Cano. I have been a proud resident of the city of Killeen for more than 15 years also served my country for 22 years as an active duty military member. During my military I've suffered several traumas, some I am dealing with to this present day. One a current surgery I underwent on June 10<sup>th</sup> fusing my spinal cord causing me to be incapable of walking/driving, sadly affecting my ability to physically attend this meeting to speak publicly and the other I would like to address is my PTSD. After many deployments and my many years of service I've found a place that I've find, a place of peace. I know it is a quiet area. I have found something that a lot of veterans struggle to find, a place of peace. I know it is perfectly safe or free from crime but I believe that building multi-family units would cause not only me but the area more harm than good. With the price of this area I've been able to improve my quality of life despite my conditions. I have built a comfortable life for myself along with my family units. I would become harder for me if my home that has provided me this peace was to be taken away. I'm all for the development of the city I just ask that what I have put forth would be keeping it zoned R-1 and RMH.

**COMMENTS:** I Miss Griffin really would've liked to be present for this meeting but due to other affairs unfortunately, I will not be able. I would still like to take this opportunity to voice my opposition to this potential future development. I have been a home owner in this area for several years and have aspirations on remodeling my home as my intent was to live here long term. My concern is that this development will affect the longer term citizens in this area negatively bringing in more traffic, decreasing our home values, and take from what is a peaceful quiet area amongst the already established neighbors. I would greatly appreciate the kind consideration of leaving the area highlighted in blue outlined located between Turtle Creek Drive and King Ct. to remain zoned R-1 and RMH.

COMMENTS: I strongly oppose and protest this rezoning request. I have the following concerns: • Public Safety concerns related to access of the proposed development • This is the second rezone request submitted for the property this year. Originally, applicants were planning 1 or to 2 egresses. If a egress is planned where the alleyway is behind my property, my property will be surrounded on 3 sides by roads (front-Ambrey Cove; West Florence Rd; back-new road) which I believe negatively affects my property & • Loss of Green space in subject property & changes to quiet neighborhood
