

MAINTENANCE SUPPORT
CONTRACT WITH COOPER
CROUSE-HINDS LLC

RS-26-055

April 21, 2026

Background

2

- The Airport utilizes an Airport Lighting Control and Monitoring System (ALCMS), which is essential for safe and efficient airfield operations; as part of the IGSA, the Aviation Department recently completed installation of the new updated system.

Background

- Fort Hood has requested that we assume responsibility for ongoing maintenance of the ALCMS under the IGSA agreement, and in accordance with FAA Advisory Circular AC 150/5340-26B, continued technical support is necessary to maintain system reliability and minimize service interruptions throughout the system's lifecycle.

Discussion

- Cooper Crouse-Hinds provides maintenance with phone support, remote troubleshooting, and two annual on-site visits for diagnostics, calibration, and software updates.
- The contract includes regular cybersecurity compliance testing and security updates to meet Department of Defense standards, along with annual testing per FAA guidelines to verify proper operation and system performance.

Discussion

5

- ❑ Overall, the contract provides comprehensive technical, operational, and cybersecurity support to maintain the reliability and safety of the ALMCS system.
- ❑ Staff has negotiated a five (5) year maintenance support contract with Cooper Crouse-Hinds, LLC in the amount of \$265,850.
- ❑ The project will be funded through the IGSA agreement.

Recommendation

- Approve a Maintenance Support Contract with Cooper Crouse-Hinds, LLC in the amount of \$265,850 and authorize the City Manager or designee to execute same as well as any and all change orders or supplemental agreements within the amounts set by State and local law.
