## **Buyboard Proposal**

**Mr. Steve Kana, P.E.**  
**Director of Water & Sewer Utilities**

City of Killeen  
1901 Botanical Dr.  
Killeen, Tx 76542

**Project Name: City of Killeen, Tx – 12 Inch Wastewater Main Rehabilitation in the Central Basin**

**Insituform Technologies, LLC.** herein proposes to furnish all labor, materials, equipment and services for accomplishing the referenced task (as described in the project location maps presented by the Owner) utilizing The Local Government Purchasing Cooperative Contract #462-14 administered through the BuyBoard.

### **Assumptions and Qualifications**

---

We have based this proposal on a nominal wall thickness for the Insitutube as shown in the price. This is based on the best available information at the time of this proposal. Existing pipe deterioration in excess of the conditions assumed, ground water loads in excess of those assumed, or other loads or conditions may increase the recommended thickness for all or portions of the work. Final recommendations may be submitted to you following the completion of the preliminary TV phase of the project. Stated prices are subject to adjustment if design changes are agreed upon.

Laterals. During TV inspection all side sewers are verified, using best practical efforts, to determine if each is an active hook up. Normal practice only reinstates those that are active. You may direct us to reinstate all, or specific laterals, as you desire. This proposal, unless otherwise stated and a pay item provided, assumes that all laterals will be reconnected. Specific service connections will not be reconnected only when written directions are received from the Owner. The Owner will indemnify and hold Insituform Technologies, LLC. harmless from all claims arising from backups and other effects of such actions or inaction's.

Insituform will supply the Owner, Payment, and Performance Bonds and Certificate of Insurance following acceptance of this proposal.

The pricing in this proposal assumes that all Technical Specifications set forth by the BuyBoard will be strictly adhered to. Any changes to these specifications must be noted and agreed upon by both parties prior to finalizing the proposal pricing. This proposal provides for the rehabilitation of the manhole walls / benches including the necessary adjustment, sealing and replacement of the rings and covers. The Owner shall provide the manhole ring and cover for the contractor to install. This proposal does not provide for any unknown point repairs or internal obstruction removals other than the roots.

Water shall be provided at no cost to Insituform Technologies, LLC. for all construction phases of this project. Insituform Technologies, LLC. will follow all required deposit, backflow prevention, and metering procedures.

### **Proposal Terms and Conditions**

---

**Insituform Buyboard Proposal - City of Killeen, Tx – 12 Inch Wastewater Main Rehabilitation in the Central Basin**

Terms and Conditions from The Local Government Purchasing Cooperative Contract are available upon request from the BuyBoard. Any changes to these conditions must be noted and agreed upon by both parties.

**Proposal Pricing**
