

PROCUREMENT OF REFUSE TRUCKS FOR PUBLIC WORKS

RS-24-112

June 18, 2024

Background

- Public Works Solid Waste Residential Division is in immediate need of replacing two existing refuse trucks that have met their service life as well as adding two trucks to assist with the City's growth.
- The units are automated side-loader type refuse trucks dedicated to residential trash pickup.
- The two units being replaced were scheduled to be ordered in FY2025. But due to long lead times in obtaining equipment and the funding being available now, it is deemed necessary to purchase the replacements and additional units now.

Procurement Information

3

- Cost of four refuse trucks = \$1,784,484
- Units to be purchased from Bond Equipment Co. Inc. utilizing the Texas Association of School Boards (TASB) BuyBoard Cooperative
- Funding available in the Solid Waste CIP Fund

Recommendation

Staff recommends City Council authorize the purchase of the four refuse trucks for the Public Works Solid Waste Residential Division from Bond Equipment Co. Inc. in the amount of \$1,784,484, and that the City Manager or designee be authorized to execute any and all change orders as permitted by state and local law
