

EMERGENCY SERVICES MASTER PLAN

DS-19-082

September 5, 2019

What is an Emergency Service Master Plan (ESMP)

2

- A structured validated study considering systematic city growth and predictive recommendations of future emergency response resources for Fire, Rescue and EMS
- Associated costs analysis

What Factors Does the ESMP Consider

3

- Future growth of the city
 - Population
 - Economic growth projections
 - Direction of geographic growth
 - Major thoroughfares

What Recommendations Does the ESMP Validate

4

- Validated recommendations
 - ▣ Required Fire Stations and apparatus per capita
 - ▣ Geographic station locations
 - ▣ Projected timelines
 - ▣ Predictive capital costs analysis

ESMP Discussion
