

TRM 835 Treadmill

EXPERIENCE™ SERIES

Product Highlights

The TRM 835 combines thoughtful design and performance to deliver an exerciser experience that feels right. The TRM 835 makes it easier for you to provide a customer-focused environment. Quiet and efficient, the streamlined assembly includes diagnostic tools to increase uptime and keep operating costs down.

Product Features

- 1. Console**
The P30 console features easy-to-use motion controls and an LED display that focuses on the essential fitness stats to keep users informed and engaged.
- 2. Power Factor Correction (PFC)**
The highly efficient 4 HP AC motor drives are optimized with PFC for increased efficiency, improved performance, and reduced energy consumption by up to 30%.
- 3. Integrated Footplant Technology™**
Integrated Footplant Technology recognizes the exerciser's natural foot speed and matches every stride for an ultra-smooth feel that enhances the workout experience.
- 4. Ground Effects® Impact Control System**
This patented GFX system combines ideal cushioning, support, and stability for exercisers. Precor treadmill decks are designed to absorb more impact in the front where exercisers' feet hit the belt. Added rigidity at the back of the belt allows for a firm push-off.
- 5. Active Status Light**
To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.

SPECIFICATIONS

EFX[®] 833 Elliptical Fitness Crosstrainer[®] Experience™ Series

Product Features

1. Handlebars

The fixed handlebars allow exercisers to focus on a lower body workout.

2. P30 Console

The P30 console features easy-to-use motion controls and an LED display that focuses on the essential fitness stats to keep users informed and engaged. Add an optional Entertainment Cap to provide access to a selection of audio channels, including those from wall or ceiling-mounted displays, or a Personal Viewing System (PVS) to give exercisers a more personal entertainment experience, with total choice and control.

3. Converging CrossRamp[®]

Patented converging footpath design and incline adjustments between 10 - 35 degrees, along with 20 levels of resistance, give exercisers a challenging workout with a more natural feeling stride.

4. Covered Ramp & Rear Drive Housing

Experience easy maintenance with the covered ramp and rear drive housing that enable quick access for cleaning.

5. Active Status Light

Alerts staff at a glance when the EFX needs maintenance or service.

Refined colorways with dark Tungsten covers and two frame color options.

RBK 835 Recumbent Bike

EXPERIENCE™ SERIES

Product Highlights

The RBK 835 Recumbent Bike features a step-through design to appeal to a wide range of exercisers. The simple seat adjustment allows the exerciser to change the position of the seat with one hand, either on or off the bike. A ventilated air flex seat provides exceptional comfort.

Product Features

- 1. Console**
The P30 console features easy-to-use motion controls and an LED display that focuses on the essential fitness stats to keep users informed and engaged.
- 2. Step-through Design**
Designed for easy entry, the recumbent bike has a step-through design (14 in / 36 cm wide) with a low step-over height (4 in / 10 cm).
- 3. Air Flex Seat Back**
The custom-designed air flex seat features a ventilated panel and unique suspension system for a cool, cushioned ride.
- 4. Seat Adjustment**
The simple seat adjustment allows the exerciser to change the position of the seat with one hand, either on or off the bike.
- 5. Ease of Maintenance**
The easy-to-remove shroud ensures quick access to the belt-drive system for maintenance and servicing without removing the pedals or crank.
- 6. Dual-sided Pedals**
The dual-sided pedals allow the exerciser to use the pedals with or without the integrated straps. The extra wide pedals comfortably accommodate feet of all sizes to encourage proper pedaling form.

SPECIFICATIONS

Dimensions (L x W x H): 67 x 23 x 54 in / 170 x 58 x 136 cm

Weight: 210 lb / 95 kg

Vitality Series™

Designed for users of all levels, the Vitality Series is easy to use. These single and dual-station strength machines are intuitive, require minimal floor space and provide a comprehensive conditioning circuit that meets the budget requirements of a wide range of fitness facilities.

Add-on Weights – Each Vitality Series station features add-on weights. Users can easily engage the add-on weight with a simple push of a lever.

Compact – The Vitality Series is designed with limited space in mind. All machines have a small footprint and a low profile design.

PRECOR®

240i StretchTrainer™

Stretching

Stretching is an important component in a proper warm-up and cool-down for each workout. The 240i StretchTrainer™ enables users to prepare their bodies for a stronger and more satisfying workout and helps to prevent injury during and after exercise. Users will feel more flexible and prepared for their workouts every time. Lightweight with a small footprint for placement anywhere.

PRODUCT HIGHLIGHTS

- 1 Instructional Placard**
Instructional placards with eight key stretches guide users
- 2 Comfortable**
Cushioned seat and knee pads help users sit comfortably.
- 3 Easy to Use**
Low step-up height makes it easy to use.
- 4 Padded Handlebars**
Padded handlebars allow the user to control the intensity and duration of each stretch.
- 5 Low Maintenance**
Built to last, with durable construction and high-quality components.

PRODUCT SPECIFICATIONS
