

REJECTION OF BID 25-19 MOTOR REPLACEMENTS

RS-25-037

March 18, 2025

Background and Findings

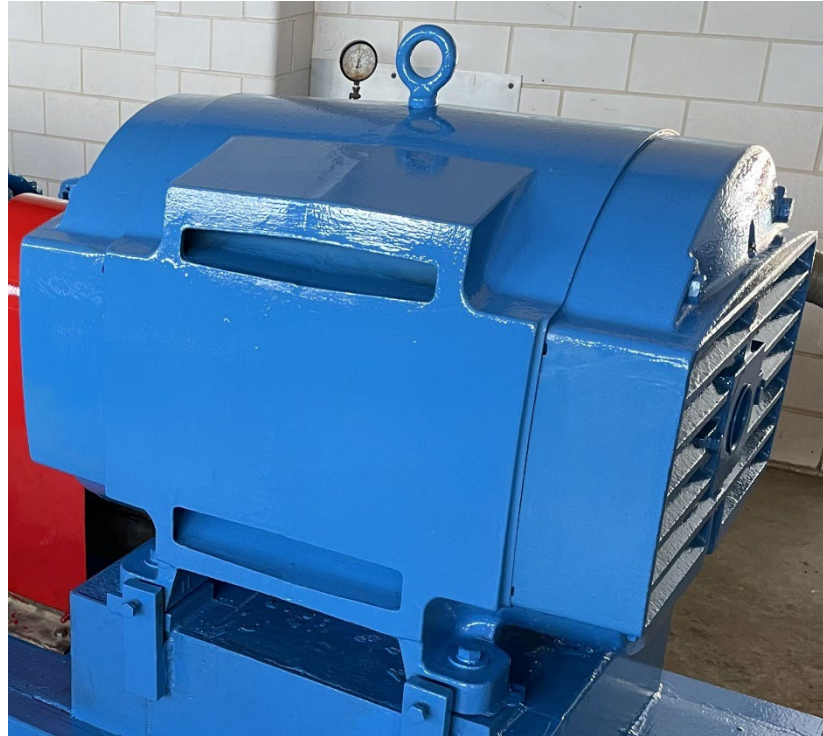

- ❑ Pumps have a life cycle of 10 – 20 years, are made up of many parts and are critical to the water/wastewater infrastructure system to move fluids from one location to another.
- ❑ Staff went out for a multi-year bid for motor replacements within four (4) pump stations that have all exceeded their life cycle.
- ❑ On February 5, 2025, Purchasing received one (1) response for bid 25-19, Motor Replacements.

Background cont.

- Review of the one (1) response showed that specifications in the bid packet were not quoted as specified.
- General instructions and preparations of the bid conditions within the bid documents allow the city to reject any and all bids.

Motor for Pump Stations
