**COMMENTS:** I am OPPOSEED to the change

My property has already been damaged, with a portion of it not accessible due to EXCESSIVE water runoff created by the residential development to the North, my land bridge/culvert was washed away leaving a 3-5 foot deep ravine. If the subject panels are allowed to be developed into residential it will make the water runoff problem I am experiencing WORSE!

This land has been zoned industrial for a long time and it needs to be used that as industrial. There is a shortage of industrial developable property and we should not give any of it up.
