

RATIFY PAINT SPILL AT LITTLE NOLAN CREEK

RS-23-207

December 12, 2023

Background

2

- On March 23, 2023, Little Nolan Creek became contaminated after three (3) 5-gallon buckets of paint were tossed into the creek.
- After meeting onsite and conferring with Texas Commission on Environmental Quality (TCEQ), staff reached out to C G Environmental for assistance with waste removal, disposal, water samples, and reporting services.

Background

3

- ❑ CG Environmental is an Austin-based company who provides hazardous and non-hazardous material cleanup services. Specializing in chemical spills, oil and petroleum spills, fuel spills, and industrial waste spills.
- ❑ C G Environmental provided labor, equipment, and supplies in the amount of \$155,306.29.

Alternatives

4

- ❑ Deny the ratification of the purchase for necessary repairs.
- ❑ Approve the ratification of the emergency purchase for remediation services and testing performed by C G Environmental in the amount of \$155,306.29.

Recommendation

5

- City Council approve the ratification of the emergency purchase for remediation services and testing performed by C G Environmental in the amount of \$155,306.29.
