

# REJECT BID 19-03 FOR SOUTH WATER SUPPLY PROJECT, PHASE 1

RS-18-109

December 11, 2018

# Background

2

- ❑ WCID #1 is building a new water treatment plant at Stillhouse Hollow Lake and a large transmission main to deliver treated water to the City of Killeen. Estimated completion date is Spring 2019.
- ❑ Bell County WCID #1 water transmission main will end near intersection of Trimmier and Chaparral. The City needs to provide infrastructure to deliver water from that location to the current water distribution system.
- ❑ The project will consist of four phases. Phase 1 includes installation of a 3,000 linear feet of 20-inch pipeline along Chaparral.
- ❑ Seven bids were received; however, a necessary clause was not included in the contract documents.
- ❑ In order to include proper language within the contract documents all bids should be rejected, and the project rebid.

# Alternatives

3

- ❑ Reject all bids and rebid the project including necessary contract revisions;
- ❑ Reject all bids and hold the project.

# Recommendation

4

- City staff recommends that the City Council reject all bid submissions for Bid No. 19-03 for the construction of the South Water Supply Project, Phase 1: Lower Pressure Plane Water Main.
