

# Request to Place an Item on the Agenda

(Per section 1 – 20 of the Governing Standards and Expectations)

Requester (S) Councilman Rick Williams

Date: March 3, 2022

**Problem/Issue/Idea Name for the Agenda:**

The lack of secure commercial Truck parking and storage within the city limits.

**Description of Problem/Issue/Idea:**

The community has many short and long-range truckers who have voiced their concern over the lack of secure, accessible, and available parking within the city. This causes hardship to the citizens and often puts them in direct violation of the city ordinance with little to no option on avoiding the predicament.

**Requested action:**

**Request that the council discusses the problem with the focus being producing guidance to give to the correct entities and support agencies of city government to begin seeking viable solutions.**

**Example: Guidance to the Economic Development Corporation (EDC) to create a plan to attract private entities who can fulfill this potentially profitable community need.**

**The plan would be developed and marketed with top priorities: ordinance compliance, health, safety, and environmental compliance.**

**City of Killeen-Governing Standards and Expectations**
