

FEDERAL AVIATION ADMINISTRATION GRANT  
ACCEPTANCE-PAVEMENT MANAGEMENT  
PROGRAM AT KILLEEN-FORT HOOD  
REGIONAL AIRPORT

RS-23-115

July 18, 2023

# Background

2

- ❑ Staff submitted an application to the Federal Aviation Administration (FAA) for an Airport Improvement Program (AIP) grant
- ❑ This grant includes a new pavement management study that will result in a new Pavement Management Program (PMP) that is required to meet FAA Grant Assurances and Standards

# Discussion

3

- The key elements of the PMP will be an inventory of existing airfield pavements, a history of rehabilitation and maintenance efforts, mapping of said pavements, condition inspections and testing, including geotechnical testing, to determine the condition and strength of each section of pavement

# Discussion

4

- The end product will provide the condition of existing pavements and a recommended maintenance program to extend the pavement life cycle. This type of plan is a key element in developing our FAA approved Capital Improvement Plan (CIP) related to planning and justifying grant funding of pavement rehabilitation projects

# Discussion

5

- The City has been offered an FAA AIP Grant in the amount of \$89,190 to fund 90% of the cost of the Pavement Management Program at the Killeen-Fort Hood Regional Airport (KFHRA). Matching funds, in the amount of \$9,910, will come from the Airport Capital Improvement fund

# Alternatives

6

- ☐ Do not accept the grant
- ☐ Accept the grant

# Recommendation

7

- City Council accept the Federal Aviation Administration ALP grant in the amount of \$89,190 and authorize the City Manager, or designee, to execute all grant documents and any and all amendments or actions within the amounts set by state and local law
