To whom it may concern:

Bell County has purchased and installed an Enhanced Digital Access Communications Systems (EDACS) manufactured by M/A-COM, Inc., now known as Harris Corporation. This system provides the critical Public Safety and Public Service communications for Bell County as well as the cities of Belton, Temple, Killeen, Harker Heights and many other agencies throughout the surrounding area.

At this time, EDACS/P25 equipment for this system falls under Harris Corporation intellectual property rights and the proprietary protocols represent a patent, copyright or secret process and are, therefore, currently only available from the manufacturer, Harris Corporation.

Dailey-Wells Communications is the only authorized Harris Corporation Network Solutions Provider to provide system sales, service and repairs to include mobiles, portables, control stations and other EDACS/P25 equipment for agencies operating on this communications system including the City of Killeen. This assignment was made effective September 2004 and does not have an end date. If this status should change at some point in the future you will be notified by Harris Corporation in writing. Orders for Harris Corporation equipment, service and associated accessories should be placed through Dailey-Wells Communications.

Thank you for your attention in this matter. Harris Corporation and Dailey-Wells Communications look forward to the opportunity to continue the service and sales support of EDACS Systems throughout your area.

Sincerely,

A handwritten signature in black ink that reads "Brian E. Beatty". The signature is written in a cursive style with a large, stylized 'B'.

Brian Beatty
Manager Indirect Sales, Harris Corporation

Cc: Jim Sawyer, Director of Sales, Dailey-Wells Communications
