CITY COUNCIL MEMORANDUM

AGENDA ITEM

PROCUREMENT OF FORTY-TWO (42) ENCRYPTED DIGITAL HANDHELD RADIOS

ORIGINATING DEPARTMENT

POLICE DEPARTMENT

BACKGROUND INFORMATION

The Killeen Police Department is in need of acquiring forty-two (42) additional encrypted digital handheld radios to replace radios that are currently being phased out of inventories due to lack of spare parts and support. Effective and secure communications are essential for continued service to the community, and this acquisition will assist the Police Department in replacing many of its aging radios with new P25-compliant encrypted digital handheld radios in the furtherance of that goal.

DISCUSSION/CONCLUSION

The XG-75 P25 Pro Voice Trunking 800 Mhz. handheld digital radio will comply with the Police Department's list of specifications and will operate in conjunction with Bell County Communications Center. The purchase of these radios with specified accessories will be from Dailey Wells Communications, as the sole source provider of these radios. As a sole source provider, this acquisition is exempted from the competitive bid/proposal process as required by Texas Local Government Code section 252.021. The acquisition through Dailey Wells Communications will meet the requirements for a sole source procurement as Dailey Wells is the only authorized sales outlet for Harris Corporation, which holds intellectual and proprietary rights to the equipment being purchased. Spare batteries, battery chargers and shoulder mics will be purchased through Tac 1 Systems, a third-party vendor, at cost savings to the City. Tac 1 Systems provided the lowest quoted pricing for these accessories.

Type	Vendor	Make/Model	Price ea.	Qty.	Total
Sole Source	Dailey Wells	XG-75(Encrypted)	\$3,333.75	42	\$140,018
Lowest Quote	Tac 1 Systems	Battery, Charger and Mic	\$214.88	42	\$9,025

FISCAL IMPACT

The total acquisition cost of this purchase is \$149,043 and will not exceed allocated funding. Funding is available in the 010-6000-441.46-30 account.

RECOMMENDATION

The Staff recommends the acquisition of forty-two (42) digital radios from Dailey Wells Communications as a sole source procurement for \$140,018, and forty-two (42) accessory sets

(spare batteries, battery chargers & shoulder mics) from Tac 1 Systems for \$9,025 based on lowest quoted price, and that the City Manager or designee is expressly authorized to execute any and all change orders within the amounts set by State and local law.

To whom it may concern:

Bell County has purchased and installed an Enhanced Digital Access Communications Systems (EDACS) manufactured by M/A-COM, Inc., now known as Harris Corporation. This system provides the critical Public Safety and Public Service communications for Bell County as well as the cities of Belton, Temple, Killeen, Harker Heights and many other agencies throughout the surrounding area.

At this time, EDACS/P25 equipment for this system falls under Harris Corporation intellectual property rights and the proprietary protocols represent a patent, copyright or secret process and are, therefore, currently only available from the manufacturer, Harris Corporation.

Dailey-Wells Communications is the only authorized Harris Corporation Network Solutions Provider to provide system sales, service and repairs to include mobiles, portables, control stations and other EDACS/P25 equipment for agencies operating on this communications system including the City of Killeen. This assignment was made effective September 2004 and does not have an end date. If this status should change at some point in the future you will be notified by Harris Corporation in writing. Orders for Harris Corporation equipment, service and associated accessories should be placed through Dailey-Wells Communications.

Thank you for your attention in this matter. Harris Corporation and Dailey-Wells Communications look forward to the opportunity to continue the service and sales support of EDACS Systems throughout your area.

Sincerely,

A handwritten signature in black ink that reads "Brian E. Beatty".

CITY COUNCIL MEMORANDUM

AGENDA ITEM

**2015-2019 Consolidated Strategic Plan and
FY 2015-2016 Community Development
Block Grant (CDBG) and Home Investments
Partnerships (HOME) Program Annual Action
Plan**

ORIGINATING DEPARTMENT

Community Development

BACKGROUND INFORMATION

The Consolidated Strategic Plan is a multi-year document required from jurisdictions participating in U.S. Department of Housing and Urban Development (HUD) grant programs, stating the City's plan to develop successful urban communities through goals established to expand access to affordable housing, foster suitable living environments, and expand economic opportunities, principally for low-and moderate-income residents. The annual action plan describes how funding will be utilized during that program year to address priorities established in the Consolidated Strategic Plan.

The City of Killeen will receive \$932,745 from the U.S. Department of Housing and Urban Development (HUD) for FY 2015-2016 CDBG program activities. Also available for use is \$49,023.05 in funds from canceled or completed CDBG projects and prior year program income, providing a total of \$981,768.05 for FY 2015-16 CDBG activities. The City will also receive \$301,726 from HUD for FY 2015-2016 Home Investment Partnerships (HOME) Program activities. Also available for use is \$156,816.19 in reprogrammable funds and prior year program income to the HOME program, providing a total of \$458,542.19 for FY 2015-16 HOME activities.

Applications for funding for both the CDBG and HOME programs were submitted by the deadline date of April 2, 2015, and are detailed in the attached Community Development Advisory Committee (CDAC) meeting minutes.

DISCUSSION/CONCLUSION

The CDAC met on May 6 and May 7, 2015, to review and make recommendations for proposed use of 2015-2016 CDBG and HOME Program funds on the basis of eligibility, need, and priority. Projects undertaken with CDBG and HOME Program funds address goals and objectives established in the Consolidated Strategic Plan and Annual Action Plan to meet affordable housing and community development needs.

FISCAL IMPACT

HUD regulations allow for 20% of CDBG and 10% of HOME funds to be expended on administration/planning of CDBG and HOME activities. All project costs under the CDBG and

HOME Program will be reimbursed to the City by the U.S. Department of Housing and Urban Development.

RECOMMENDATION

Following the first public hearing on June 9, 2015, recommend approval of the 2015-2019 Consolidated Strategic Plan summary, allocation of funds under the proposed 2015-2016 Annual Action Plan, and the publishing of the proposed plans to solicit citizen comments and participation. Recommend approval of the final plans with revisions, as appropriate, based on citizen comments to be reviewed during the second public hearing on July 14, 2015.

TOTAL CDBG PUBLIC SERVICES RECOMMENDATIONS FOR FUNDING		\$139,911.75
ADMINISTRATION/PLANNING OF CDBG PROGRAMS AND ACTIVITIES		\$186,549.00

Dr. Dillard pointed out there should be a limit as to how many times an agency could apply for funding because the same agencies apply and get funded year after year and don't give an opportunity for other agencies to apply. Ms. Driver-Moultrie advised there were agencies that had attended the public hearings and had not even applied, knowing that staff is available to assist with the application process. Ms. Hayward advised that many agencies have commented that the same agencies get funded every year, so they don't bother to apply and she advised them that if they don't apply they don't get a chance to get funded. Mr. Barr advised that a lot of these agencies that had been funded year after year were making a difference in the community by providing needed services. Mr. Cossey advised that this was a good subject they could maybe discuss with staff and maybe place on the agenda for future meetings.

Mr. Cossey invited all Committee members to attend the public hearings so they could be recognized for the hard work they have during this funding process. Mr. Cossey then asked for a motion to adjourn. Mr. McConaughy moved, seconded by Dr. Dillard to adjourn. Meeting adjourned at 3:27 PM.

Executive Summary

1. Introduction

The Consolidated Strategic Plan (CSP) is a 3-5 year planning document required from the jurisdiction in its participation in U.S. Department of Housing and Urban Development (HUD) grant programs. The jurisdiction has selected a five year plan to address community needs and their respective priority as identified by citizens, public service agency and civic organization representatives, local government and city officials, city planning and community development staff. The information collected and received during community planning meetings and public hearings was combined and reduced to a listing of specific categories of objectives and goals to achieve over the next five years through individual annual plans and consolidated performance reports at the end of each fiscal cycle.

The Consolidated Strategic Plan focuses on the proposed uses of two Federal Entitlement Program funding resources: CDBG and HOME Programs.

Community Development Block Grant (CDBG): The primary objective of this program is to develop viable urban communities by providing decent housing, a suitable living environment, and economic opportunities, principally for persons of low income. Funds may be used for a wide variety of activities, including: housing rehabilitation, homeownership assistance; lead-based paint detection and removal; construction or rehabilitation of public facilities; removal of architectural barriers, public services; rehabilitation of commercial or industrial buildings; matching other programs requiring “local” and loans or grants to businesses.

Home Investment Partnership Program (HOME): the HOME program provides federal funds for the development and rehabilitation of affordable rental and ownership housing for low-income households. HOME funds can be used for activities that promote affordable rental housing and homeownership for low-income households, including building acquisition; new construction and reconstruction; moderate or substantial rehabilitation; homebuyer assistance; and tenant-based rental assistance.

Additional funding from various public, private, or other federal sources will be combined with the CDBG and/or HOME funding to achieve the goals established for each year of the five year plan.

Performance will be measured at the end of each fiscal cycle noting accomplishments as well as discrepancies due to unforeseen causes.

The Killeen community is encouraged to participate at every opportunity in identifying new or changing needs and reporting them to the Community Development Advisory Committee (CDAC), during public

hearings and comment periods in association with the proposed use and expenditure of the HUD funding.

2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview

The City of Killeen and its public and private partners will utilize Community Development Block Grant (CDBG) and Home Investment Partnerships (HOME) Program funds in conjunction with other public and private funding sources to achieve outcomes in meeting the identified needs of its community and in serving the needs of the various income levels of persons and households by:

- ~ Creating a suitable living environment through programs and financial resources that provide assistance and improvement of human performance, motivation, and productivity; bettering the economic conditions under which people live, learn and work
- ~ Sustaining a suitable living environment by improving the safety and viability of neighborhoods and through the re-use and revitalization of existing resources in focused areas
- ~ Providing a suitable living environment through decent affordable housing programs that provide opportunities to assist the most at-risk families who are faced with excessive gaps between housing costs and practical solutions and interventions that are associated with housing needs in connection with the deterioration of existing affordable housing stock owned and occupied by low income families, elderly and/or disabled individuals and families

3. Evaluation of past performance

The jurisdiction estimates the following accomplishments undertaken during the 2010- 2014 Consolidated Strategic Plan (October 1, 2010 through September 30, 2014).

~An estimated 15,187 people were assisted through Public Service programs and activities through the allocation of \$721,099 of CDBG funds

~Ten (10) Public Facilities, improvements, and acquisition of public facilities including installing new and extending the useful life of facilities that serve or are located in areas of predominantly low-income populations through programs and services, and professional services that enable the projects to go forward. These activities include improvements and reconstruction of streets, sidewalks and neighborhood parks and the local farmer's market, early childhood education centers, playgrounds and safety improvements, refrigerated storage for perishable food items at a local food bank, and expansion of the local free clinic. Each of these improvements were made possible through the allocation of \$2,198,856 of CDBG funds

~Code Enforcement activities including enforcement of city codes and ordinances and demolitions of 3 substandard, vacant, and abandoned structures in target areas and addressing other code violations such as junk vehicles, high weeds and grass, graffiti including administrative costs associated with delivery of enforcement of the codes. This activity created a more suitable living environment for 22,104 unduplicated persons in target areas with over 10,700 violations being sited through the allocation of \$40,003 of CDBG funds

~One (1) Affordable rental housing complex was developed with \$650,000 of HOME funds coupled with \$10,224,660 of State Housing Tax Credit Program funds and an additional \$1,998,000 of private loan funds. The development created 112 new rental units available to elderly households earning 60% or less of the median family income for the area.

~Thirty-six (36) first time homebuyers were assisted through the HOME funded Homebuyer Assistance Program whereas the funds were used for down payment, closing costs, interest rate reductions [to make payments more affordable] and rehabilitation actions which bring the property into compliance with adopted property maintenance codes and ordinances. These properties and property owners received \$409,000 of the jurisdiction's HOME funds.

~Two hundred eighty (280) households were assisted with monthly rental subsidies made available through the jurisdiction's HOME funded Tenant Based Rental Assistance programs. These programs focused on target populations of elderly persons, age 62 years and older, victims of domestic violence and/or sexual assault, veterans, and other households at-risk of becoming homeless. This activity utilized 1,205,880 of the jurisdiction's HOME funds.

~Six (6) staff members worked over 62,400 hours in efforts to carry out the required planning, implementation, monitoring, and reporting of the city's CDBG and HOME programs throughout the past five years. Planning and administration included conducting outreach to low-income persons and households that are eligible to receive assistance through funded activities, neighborhood/community planning meetings to receive input and determine community need, seminars and workshops with industry leaders, faith-based and non-profit entities, other public and private stakeholders who serve special and target populations in need of housing, employment, child care, medical/health care, mentoring and education tutoring/training, transportation, nutrition, and other services that are needed within the community, and continued training from HUD and HUD approved technical assistance providers to maintain ongoing compliance with statutory and regulatory requirements associated with the funding. \$930,074 of CDBG and HOME program administration funds were used to achieve planning and administration costs over the past five years.

~ The City estimates approximately \$6,197,283 of CDBG and HOME program funds have leveraged more than \$16,986,164 in federal, state, and local resources totaling over \$23,183,447 over the past five years providing health and human services, public facility and public improvements, and decent housing opportunities for the Killeen community.

4. Summary of citizen participation process and consultation process.

Citizen participation is encouraged through various media sources, including publications in local and ethnic newspapers, through the City's public access channel, public news bulletin boards located in municipal buildings, and through accessing the City's internet web site. Information kiosks and bulletins are provided via written correspondence and electronic mail formats to public service agencies, civic, and faith based organizations.

The Citizen Participation Plan describes how citizens, non-profit organizations and other interested entities may contribute to the development of the consolidated strategy and annual plans to address objectives and goals to meet the identified community need. All persons are afforded the opportunity to meet with City staff, to participate by attending community planning meetings, public hearings, and advisory committee meetings, and to submit proposals.

During the preparation of the Consolidated Strategic Plan, comments are accepted through various correspondence formats, from all persons, public, private or civic organizations and are considered when funding various project requests. Access to public hearings and notice of hearings are made available to all persons, regardless of impediments or disabilities, and are published in accordance with HUD and local regulations.

Participation of non-English speaking citizens is accomplished with bilingual staff and publication in Spanish language, of public notices of hearings, informational manuals, and guides on the CDBG and HOME Programs. Bilingual staff is also available on an individual basis and translators for other languages are available upon citizen's request. Community Development Advisory Committee members are involved in the development of programs, are actively involved in local community development matters with many members utilizing [their] bilingual capabilities to stimulate and encourage participation of minority and non-English speaking citizens.

Presentations, Discussions and Priorities

Two community-planning meetings were held on February 18 and 26, 2015 by the Community Development Advisory Committee (CDAC), with presentations to attendees by the Community

Development Division Staff, at the Bell County Human Services building located at 718 N. 2nd Street, downtown Killeen. The planning meetings introduced the consolidated plan process for the federal grant programs and funding resources for 2015-2019 and for the fiscal year 2015-2016 with attendees contributing community input on housing and community development needs.

The City also conducted a “community survey” consisting of 27 questions [7 demographic and 20 category specific] associated with affordable and fair housing needs, suitable living environments and expansion of economic opportunities through utilization of governmental and non-governmental resources to serve the Killeen community. All Killeen citizens and community stakeholders were encouraged to complete the entire survey or only those sections of interest. The survey was available beginning February 20 through March 31, 2015 via the City’s Community Development Department web page; additionally survey access was available for mobile device users through a “text to access” mobile keyword, or as a paper document. A total of 446 persons accessed the survey with 94% (420) completing the full survey. Survey respondents were offered three choices in their response to the questions posed with the objective to place each question in a priority need category of high, low, or none/no priority. Through the planning meetings and the community survey, citizens, service providers, community leaders, and other interested parties were asked to identify and prioritize specific needs of the community. The following represents priorities established from those respondents:

High priority housing needs included the need for homeless shelters, housing for elderly persons age 65 and older, accessibility [architectural barrier removal] for disabled home owners, barriers to homeownership due to bad or poor credit and the inability to qualify for a mortgage loan and the lack of down payment for those that can qualify and then the lack of income to pay for necessary repair/maintenance of the home. Rental housing with high priority concerns included the condition of the unit, excessive deposits for security, utility and/or pets. Areas of low or no priority included for renters include landlord not accepting rent subsidy payments from federal programs and allowing a disability assistance /emotional support animal in the unit. Respondents indicated that they would participate in free educational opportunities through online, video, or “podcast” courses regarding the homebuyer process, credit counseling, or understanding lease or rental agreements.

Public Service program priorities garnering high need responses include abused and neglected children, crime prevention and awareness, and mental health counseling and services. Low/no priority areas

identified include the need for one-time payment assistance programs and fair housing/tenant – landlord counseling.

Special needs populations, which includes groups of persons with disabilities of a physical, developmental, mental, addiction, or social disease, veterans, frail elderly, ex-offenders, unaccompanied (homeless) youth, domestic violence victims and other households moving from transitional housing to permanent housing, also had several high scores for the various special needs populations. Those populations garnering 80% or more of the overall response included unaccompanied youth/youth exiting foster care, victims of domestic violence, and persons with mental illness followed by 79.7% listing disabled veterans with a high priority. These special needs populations usually require some level of supportive services to assist in performing routine daily tasks – those high ranked support services include life skills training to attain self-sufficiency, information and referral with case management and housing support services. Assisted living facilities and transitional housing (up to 24 months) are key components to success of the special needs populations groups.

Facilities for use in delivery of public service programs, as well as funding to bridge gaps in providing those facilities necessary for serving and meeting the particular needs of the community are vital in the cycle of creating and sustaining suitable living environments. Public facility and public improvements, identified such as youth centers, food bank/food pantry, neighborhood facilities (i.e. multi-purposes structures for social services and recreation) primarily serving low-income persons and outdoor locations (not buildings) for parks and recreation; sidewalks including lighting, benches, street-scaping and trash receptacles green space and demolition and clearance of unsafe structures, in residential areas also received high priority responses. Public facilities and improvements of this nature are limited to areas within the city containing higher populations of low-income households and/or serve primarily low-income persons and families.

Economic development plays an important role in the life of any community and is largely governed by two factors: government and entrepreneurship. Local government often provides incentives for entrepreneurship investment to flourish and take hold, resulting in economic growth for the community. Survey respondents indicated that job creation and training were necessary for empowerment and self-sufficiency to reduce generational poverty. Business (*assuming small business types*) mentoring, small business loans, and start up assistance were among the high priorities that could

potentially spur new growth in areas left behind or forgotten by the auto-urban society. Factors also considered and associated with economic development includes re-use and revitalization of older structures for commercial/industrial use and residential neighborhoods necessary for housing the required work force and utilization of supply provided. Areas identified as having a high priority for revitalization and redevelopment included existing small neighborhood park areas, single-family housing rehabilitation and/ or reconstruction, educational opportunities through public schools and child development centers and multi-family housing with amenities that provide social and recreational space along with security (i.e. gated perimeter). Older buildings may also serve the community by housing local cultural and heritage centers, galleries, exhibition halls, or museum. Numerous responses provided potential geographical areas in need of this type of redevelopment/revitalization with the most responses indicating the area encompassed within the boundary of Fort Hood boundary on the North; Fort Hood Street (Hwy 195) on the West; Highway 190 (Central Texas Expressway) on the South; and W. S. Young on the East (Geo boundary large). Yet within that boundary lies a smaller geographical area identified as a priority area encompassing Fort Hood boundary on the North; Fort Hood Street (Hwy 195) on the West; Hwy 190 (Business 190/Veterans Memorial Blvd.) on the South; and 10th Street on the East (Geo boundary small).

Specific boundary division should be considered carefully so as not to leave one side or the other of any particular boundary line without fair and equitable consideration of inclusion.

These priorities will be more fully described and visualized in the complete consolidated strategy.

AGENDA ITEM

Veterans Memorial Boulevard, from "B-5" (Business District) with a Special Use Permit (SUP) to "B-5" (Business District) with a Conditional Use Permit (CUP) to allow for continued use as Mid-Tex Towing. The subject property is locally known as 4100 E. Veterans Memorial Boulevard, Killeen, Texas.

- (12) Mobile home sales.
- (13) Sale of beer and/or wine for off-premises consumption only.
- (14) Tattooing (as licensed per Texas Health and Safety Code, chapter 146, as amended).

Conditional Use Permit

Purpose. The purpose of the Conditional Use Permit process is to identify those land uses that may be appropriate within a zoning district but, due to their location, function or operation, could have a harmful impact on adjacent properties or the surrounding area, and to provide a procedure whereby such uses may be permitted by further restricting or conditioning the same so as to mitigate or eliminate such potential adverse impacts. The Conditional Use Permit runs with the land, regardless of ownership, until termination of the permit.

Criteria for approval. The Planning and Zoning Commission may recommend approval of a Conditional Use Permit by majority vote, but shall recommend disapproval of an application if it finds one or more of the following, or other valid justifications, to be true:

(A) The proposed use will be incompatible with existing or permitted uses on surrounding sites because of use, building height, bulk and scale, setbacks and open spaces, coverage, landscaping and screening, drainage, or access and circulation features;

(B) The proposed use is not suitable to the premises or structure(s) in which it will be conducted;

(C) The proposed use will be detrimental to the public health, safety or welfare, or will negatively affect the property or improvements in the vicinity;

(D) The proposed use fails to reasonably protect persons and property from erosion, flood or water damage, fire, noise, glare, odors, or similar hazards or impacts;

(E) The proposed use will materially and adversely affect traffic control or adjacent properties by inappropriate location, lighting or types of signs;

(F) The proposed use fails to provide adequate and convenient off-street parking and loading facilities; or

(G) The proposed use will incorporate the sale or distribution of alcoholic beverages for on-premises consumption except where the applicant seeks a temporary permit, not to exceed two (2) months in duration, to allow for the on-premises sale, distribution or consumption of alcoholic beverages for temporary events in compliance with a Texas Alcoholic Beverage Commission issued permit and the Texas Alcoholic Beverage Code, as amended.

Regardless of whether such conditions have been recommended by the Planning and Zoning Commission, the City Council may establish such conditions of approval as are reasonably necessary to insure compatibility with surrounding uses and to preserve the public health, safety and welfare. Such conditions may include, without limitation, a limited term or duration of the permit; requirements for special yards, lot sizes, open spaces, buffers, fences, walls or screening; requirements for the installation and maintenance of landscaping or erosion control measures; requirements for street improvements, regulation of vehicular ingress or egress and traffic circulation, regulation of signs; regulation of hours or other characteristics of operation; establishment of development schedules for performance or completion; and such other reasonable conditions as the City Council may deem necessary to preserve the health, safety, and welfare of the applicant and the public.

CONSIDERATIONS

Texas Supreme Court in Pharr v. Tippitt, 616 S. W 2nd 173 (Tex 1981) established general guidelines which the Planning and Zoning Commission and City Council should take into consideration when making their respective recommendation and decision on a zoning request.

A. General Factors to Consider:

Is the request in accordance with the comprehensive plan?

Is the request designed to lessen congestion in the streets; secure safety from fire, panic or other dangers; promote health and the general welfare; provide adequate light and air; prevent the overcrowding of land; avoid undue concentration of population; or facilitate the adequate provision of transportation, water, sewers, schools, parks and other public requirements?

What if any, is the nature and degree of an adverse impact upon neighboring lands?

The suitability or unsuitability of the tract for use as presently zoned.

Whether the amendment bears a substantial relationship to the public health, safety, morals or general welfare or protects and preserves historical and cultural places and areas.

Whether there is a substantial public need or purpose for the new zoning.

Whether there have been substantially changed conditions in the neighborhood.

Is the new zoning substantially inconsistent with the zoning of neighboring lands? (Whether the new zoning is more or less restrictive.)

The size of the tract in relation to the affected neighboring lands – is the tract a small tract or isolated tract asking for preferential treatment that differs from that accorded similar surrounding land without first proving changes in conditions?

Any other factors which will substantially affect the health, safety, morals or general welfare.

B. Conditional Use Permit (if applicable)

Whether the use is in harmonious with and adaptable to buildings, structures and use of abutting property and other property in the vicinity of the premises under construction.

C. Conditions to Consider

1. Occupation shall be conducted only by members of family living in home.
2. No outside storage or display
3. Cannot change the outside appearance of the dwelling so that it is altered from its residential character.
4. Cannot allow the performance of the business activity to be visible from the street.
5. Cannot use any window display to advertise or call attention to the business.
6. Cannot have any signs
7. No off-street parking or on-street parking of more than two (2) vehicles at any one time for business related customer parking.
8. No retail sales.
9. Length of Permit.

CITY COUNCIL MEMORANDUM

AGENDA ITEM

COMPREHENSIVE PLAN FUTURE LAND USE MAP (FLUM) AMENDMENT: 'GENERAL RESIDENTIAL' AND 'RURAL' TO 'GENERAL COMMERCIAL'

ORIGINATING DEPARTMENT

PLANNING & DEVELOPMENT SERVICES

Nature of the Request

The applicant is requesting to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change 'Rural' and 'General Residential' designated areas to a 'General Commercial' designated area for approximately 8.288 acres, being part of the Robert Cunningham Survey, Abstract No. 199. The property is located on the east right-of-way of South W.S. Young Drive, approximately 300' south of E. Stan Schlueter Loop (FM 3470) and north of Rio Grande Court, Killeen, Texas.

The applicant has submitted a concurrent request to rezone the subject properties from "R-1" (Single-Family Residential District) to "B-5" (Business District) and "B-1" (Professional Business District).

Land Use Plan: The property is designated as 'General Residential' and 'Rural' on the Future Land Use Map (FLUM) of the Comprehensive Plan.

Plan Recommendation: The Comprehensive Plan calls for detached residential dwellings; attached housing types subject to compatibility and open space standards (e.g., duplexes, townhomes, patio homes); planned developments, potentially with a mix of housing types and varying densities, subject to compatibility and open space standards; public/institutional uses; parks and public spaces. The characteristics of this designation include:

Predominantly "R-1" zoning district is with less openness and separation between dwellings compared to 'Suburban Residential' areas.

Auto-oriented character that can be offset with architectural standards, landscaping and limited uniform subdivision designs.

Neighborhood-scale commercial emerging over time for well-suited areas.

Plan Recommendation: The Comprehensive Plan calls for residential homesteads; agricultural uses and agriculture-focused commercial retail; natural and protected floodplain areas; wide open landscapes, with no sense of enclosure, and views to the horizon unbroken by buildings.

The characteristics of this designation include: very high open space ratios and very low building coverage; very low-density development, providing privacy and detachment from other

dwelling in the area; much greater reliance on natural drainage systems, except where altered significantly by agricultural operations.

If approved, the property will be designated as 'General Commercial' which contemplates the following community character: The proposed revision to the property would result in a 'General Commercial' designation on the Future Land Use Map (FLUM) of the Comprehensive Plan. This designation calls for a wide range of commercial, retail and service uses, at varying scales and intensities depending on the site.

Figure 1. Aerial Map (FLUM)

See Attachment

Figure 2. Future Land Use Map (FLUM)

See Attachment

The items below should be reviewed and addressed when a Future Land Use & Character map adjustment is proposed:

Scope of Amendment: Is the proposed map change limited to one or a few parcels, or would it affect a much larger area? *The amendment would affect approximately 8.288 acres, and should be considered a small scale amendment.*

Change in Circumstances: What specific conditions (e.g., population size and/or characteristics, area character and building form, property/structure conditions, infrastructure or public services, market factors including need for more land in a particular designation, etc.) have changed sufficiently to render the current map designation(s) inappropriate or out-of-date? *The 'Rural' land use designation is shown on the map due to the existence of a Special Flood Hazard Area (SFHA) on the property. The areas to the north of the site are currently designated for 'General Commercial' use; this action simply allows for additional commercial opportunities near the highly visible corner of Stan Schlueter Loop (FM 3470) and South W. S. Young Drive.*

Consistency with Other Plans: In addition to the Comprehensive Plan, is the proposed map change consistent with the intent and policy direction of any applicable small area plans, utility or drainage plans, or other City plans? *The proposed map change is not inconsistent with other City planning efforts (Water and Wastewater Master Plan, Thoroughfare Plan, Parks Master Plan).*

Adequate Information: Do City staff, the Planning and Zoning Commission, and/or City Council have enough and appropriate information to move ahead with a decision (e.g., utility capacity, potential traffic impacts, other public service implications, resident/stakeholder concerns and input)? *Staff has sufficient information regarding utility capacity and roadway level of service for this area.*

Stakeholder Input: What points, concerns, and insights have been raised by area residents, property owners, business owners, or others? *Mr. Andrew Owens, the owner of 2406 Rio Grande Court spoke in opposition to the FLUM amendment request.*

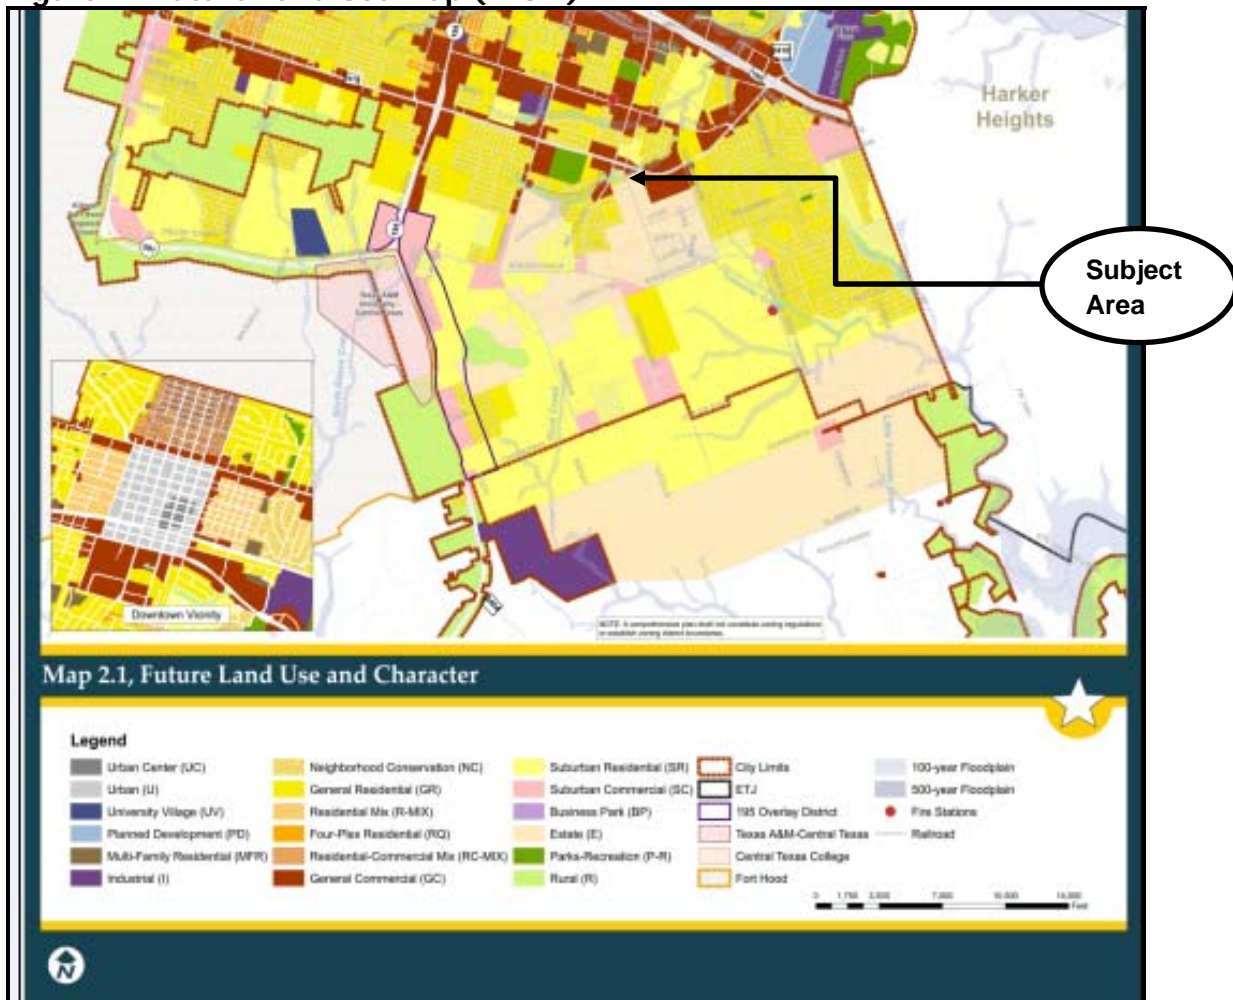

Recommendation

The Planning and Zoning Commission recommended approval of amending the Future Land Use Map from 'General Residential' and 'Rural' to 'General Commercial' by a vote of 8 to 0. The Comprehensive Plan forms a framework where decision-makers have the flexibility to encourage land use balance and enhance economic development success. An amendment to the FLUM for this property will be consistent with the projected commercial growth anticipated for this area and will encourage supporting commercial retail uses necessary for the residents.

Re: Rezoning Application – FM 3470 & WS Young Drive & Onion Road

Dear Mr. McIlwain,

Please find this letter as our petition to consider a request on behalf of the owner, LAM Estates, Ltd., to revise the City's Comprehensive Plan Future Land Use & Character Map from General Residential to General Commercial on a tract of land consisting of approximately 8.288 acres and better shown in the attached Surveyor's Sketch.

The requested General Commercial land use is not inconsistent with the land use of the surrounding properties. The property is situated in a business corridor in both the north-south and east-west directions consisting of B-2, B-3 and B-5 business zoning districts. The existing transportation infrastructure surrounding the property consists of:

- WS Young - a minor arterial street fronting the west property line;
- E Stan Schlueter Loop - a principal arterial street located approximately 300 feet north and parallel with the north property line;
- Onion Road - a collector street adjacent to the east property line; and
- Rio Grande Court - a local street adjacent to the south property line.

The proposed General Commercial land use in this area compliments the surrounding land uses and positively promotes the City's business district growth model.

Should you have any questions, please don't hesitate to contact me.

Sincerely yours,

**PLANNING AND ZONING COMMISSION MEETING
JUNE 15, 2015**

**CASE FLUM #Z15-11
RURAL AND GENERAL RESIDENTIAL TO GENERAL COMMERCIAL**

HOLD a public hearing and consider a request to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change 'Rural' and 'General Residential' designated areas to a 'General Commercial' designated area for approximately 8.288 acres, being part of the Robert Cunningham Survey, Abstract No. 199. The property is located on the east right-of-way of South W.S. Young Drive, approximately 300' south of E. Stan Schlueter Loop (FM 3470) and north of Rio Grande Court, Killeen, Texas.

Chairman Frederick requested staff comments.

City Planner Tony McIlwain stated that the applicant is requesting to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change 'Rural' and 'General Residential' designated areas to a 'General Commercial' designated area for approximately 8.288 acres, being part of the Robert Cunningham Survey, Abstract No. 199. The property is located on the east right-of-way of South W.S. Young Drive, approximately 300' south of E. Stan Schlueter Loop (FM 3470) and north of Rio Grande Court, Killeen, Texas.

Staff recommended approval of amending the FLUM from 'Rural' and 'General Residential' to 'General Commercial' for this area. The Comprehensive Plan forms a framework where decision-makers have the flexibility to encourage land use balance and enhance economic development success. An amendment to the FLUM for this property will be consistent with the projected commercial growth anticipated for this area and will encourage supporting commercial retail uses necessary for the residents.

Chairman Frederick opened the public hearing.

Mr. Andre Owens, 2406 Rio Grande Ct, Killeen, Texas, spoke in opposition to the requested amendment to the FLUM. His concerns were the possibility of decrease in property values, increase in crime, issues with drainage and the fact that the homes on Rio Grande Court would be facing the rear of commercial entities when the residents were in their front yards. Mr. Pedro Quintero spoke in support of the request; he also addressed a couple of the concerns that were stated. The uses in the B-1 portion would be retail sales and the drainage issues would be improved.

With no one else requesting to speak, the public hearing was closed.

Vice Chair Dorroh motioned to recommend approval amendment of the FLUM. Commissioner Butler seconded the motion. The motion passed unanimously.

Chairman Frederick stated that the FLUM amendment will be forwarded to City Council on July 14, 2015, with a recommendation to approve.

Property Specifics

Applicant/Property Owner: Lam Estates, Ltd.

Property Location: The property is located along the east right-of-way of South W.S. Young Drive, north of Rio Grande Court, Killeen, Texas.

Legal Description: The property is part of the Robert Cunningham Survey, Abstract No. 199, Killeen, Texas.

Zoning/Plat Case History:

The last zoning activity on the property occurred on September 12, 2000, when a portion of the property was zoned from "A" (Agricultural District) to "R-1" (Single-Family Residential District), per Ordinance No. 00-69.

The property is not platted.

Character of the Area

Existing Land Uses(s) on the Property: The property is not developed.

Figure 1. Aerial Map

See Attachment

Historic Properties: None

Infrastructure and Community Facilities

Water, Sewer and Drainage Services:

Provider: City of Killeen

Within Service Area: Yes

Feasibility Study or Service Commitment: The existing potable water main that serves the property is a 12-inch diameter transmission main running along the west right-of-way of South W.S. Young Drive. Upon approval of a future development permit application, the developer would be required to extend a public water main across the property to provide adequate commercial and fire flows in accordance with the City of Killeen Code of Ordinances and other applicable development criteria.

Public sanitary sewer utilities are in place and immediately accessible to the tract. The existing sanitary sewer main that serves the property is a 6-inch diameter collection main running along the east right-of-way of South W.S. Young Drive. Upon approval of a future development permit application, the developer would be required to extend a public sanitary sewer main to provide adequate collection capacity in accordance with the City of Killeen Code of Ordinances and other applicable development criteria. The structures within the property were served by an onsite sanitary sewer facility (OSSF). Any existing OSSF within the boundary of the property must be closed in accordance with all applicable state and local OSSF regulations as no future development may be served by an existing or new OSSF.

Transportation:

Existing conditions: The property has direct access to South W.S. Young Drive, which is classified as a 70' collector on the City's approved Thoroughfare Plan.

Proposed Improvements: Upon submission of a subdivision plat, it will be necessary for the property owner to dedicate the necessary right-of-way as detailed on the Thoroughfare Plan.

Any new modes of ingress/egress to the tract from South W. S. Young Drive will be disciplined through the policies of the City's Thoroughfare Development Manual when the property is developed. South W. S. Young Drive is an urbanized road section (curb and gutter) and is currently at the desired level of service for a minor arterial street classification.

Projected Traffic Generation: Undetermined at this time.

Environmental Assessment

Topography: The property ranges in elevation from 856' to 872'.

Regulated Floodplain/Floodway/Creek: Approximately 5.57 acres of the approximate 8.288 acres in this zoning case are located within a regulatory Special Flood Hazard Area (SFHA). The acreage within the SFHA includes approximately 3.32 acres within the Floodway. Current City codes require the establishment of a creek buffer zone along Little Nolan Creek that will span a distance of 25' beyond the top of each bank.

The wetlands for the site are classified as follows: approximately .55 acres are a freshwater pond (PUBHh), approximately 0.66 acres are a Freshwater Emergent Wetland (PEM1Fh), and approximately 0.51 acres are Freshwater Forested/Shrub wetland (PFO1Ch). The soils for the site are classified as follows: approximately 2.3 acres are San Saba clay with 1 to 3 percent slopes (SsB), approximately 5.6 acres are Frio silty clay with 0 to 1 percent slopes and is frequently flooded (Fs), and approximately 0.4 acres are Brackett association with 8 to 12 percent slopes (BRE).

Currently sheet flow runoff on this development enters Little Nolan Creek within the subdivision boundary. Little Nolan Creek flows into Nolan Creek prior to leaving the City. Both Little Nolan Creek and Nolan Creek are currently listed on the TCEQ's 2012 303(d) water quality list for impairment due to bacteria and concerns for near non-attainment for nutrients.

Land Use Analysis

Land Use Plan: The total area of 8.288 acres area is designated as 'General Residential' and 'Rural' on the Future Land Use Map (FLUM) of the Comprehensive Plan.

Plan Recommendation: 'General Residential' calls for detached residential dwellings; Attached housing types subject to compatibility and open space standards (e.g., duplexes, townhomes, patio homes); planned developments, potentially with a mix of housing types and varying densities, subject to compatibility and open space standards; public/institutional uses; parks and public spaces.

'Rural' allows residential homesteads, planned development to accommodate conservation and cluster residential designs, agricultural uses, agriculture-focused commercial retail, public/institutional/parks and public spaces, and natural and protected floodplain areas.

Consistency: The "B-5" and "B-1" zoning requests are not consistent with the FLUM; however staff is recommending amending the FLUM to 'General Commercial'.

Public Notification

The staff notified eighteen (18) surrounding property owners within a 200' notification boundary regarding this request. Staff received no protests.

Recommendation

The Planning and Zoning Commission recommended approval of the applicant's request by a vote of 8 to 0.

CONSIDERATIONS

Texas Supreme Court in Pharr v. Tippitt, 616 S. W 2nd 173 (Tex 1981) established general guidelines which the Planning and Zoning Commission and City Council should take into consideration when making their respective recommendation and decision on a zoning request.

A. General Factors to Consider:

Is the request in accordance with the comprehensive plan?

Is the request designed to lessen congestion in the streets; secure safety from fire, panic or other dangers; promote health and the general welfare; provide adequate light and air; prevent the overcrowding of land; avoid undue concentration of population; or facilitate the adequate provision of transportation, water, sewers, schools, parks and other public requirements?

What if any, is the nature and degree of an adverse impact upon neighboring lands?

The suitability or unsuitability of the tract for use as presently zoned.

Whether the amendment bears a substantial relationship to the public health, safety, morals or general welfare or protects and preserves historical and cultural places and areas.

Whether there is a substantial public need or purpose for the new zoning.

Whether there have been substantially changed conditions in the neighborhood.

Is the new zoning substantially inconsistent with the zoning of neighboring lands? (Whether the new zoning is more or less restrictive.)

The size of the tract in relation to the affected neighboring lands – is the tract a small tract or isolated tract asking for preferential treatment that differs from that accorded similar surrounding land without first proving changes in conditions?

Any other factors which will substantially affect the health, safety, morals or general welfare.

B. Conditional Use Permit (if applicable)

Whether the use is in harmonious with and adaptable to buildings, structures and use of abutting property and other property in the vicinity of the premises under construction.

C. Conditions to Consider

1. Occupation shall be conducted only by members of family living in home.
2. No outside storage or display
3. Cannot change the outside appearance of the dwelling so that it is altered from its residential character.
4. Cannot allow the performance of the business activity to be visible from the street.
5. Cannot use any window display to advertise or call attention to the business.
6. Cannot have any signs
7. No off-street parking or on-street parking of more than two (2) vehicles at any one time for business related customer parking.
8. No retail sales.
9. Length of Permit.

CITY COUNCIL MEMORANDUM

AGENDA ITEM

COMPREHENSIVE PLAN FUTURE LAND USE MAP (FLUM) AMENDMENT: 'SUBURBAN RESIDENTIAL' TO 'GENERAL RESIDENTIAL'

ORIGINATING DEPARTMENT

PLANNING & DEVELOPMENT SERVICES

Nature of the Request

This consideration is to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change a 'Suburban Residential' to a 'General Residential' designated area for 52.54 acres located along the north right-of-way of Stagecoach Road, approximately 420 feet west of Rein Drive, Killeen, Texas. Consideration of an amendment to the FLUM is necessary because of the applicant's request to rezone 52.54 acres from "A-R1" (Agricultural Single-Family Residential District) to "R-1" (Single-Family Residential District).

Land Use Plan: The property is designated as 'Suburban Residential' on the Future Land Use Map (FLUM) of the Comprehensive Plan.

Plan Recommendation: The 'Suburban Residential' character encourages detached residential dwellings, planned developments to provide for other housing types (e.g., townhouse, patio) in a suburban character setting, public/institutional uses, parks and public spaces. The characteristics of this designation include:

- Larger baseline minimum lot sizes to allow for larger front yards, building setbacks, and side yard separation
- Less noticeable accommodation of vehicles
- Encourages smaller lot sizes in exchange for greater open space set asides
- Encourages conservation design or cluster development

If approved, the 'General Residential' character encourages and allows the following:

- Detached residential dwellings;
- Attached housing types subject to compatibility and open space standards (e.g., duplexes, townhomes, patio homes);
- Planned developments, potentially with a mix of housing types and varying densities, subject to compatibility and open space standards; public/institutional; parks and public spaces.
- Predominantly "R-1" zoning district with less openness and separation between dwellings compared to Suburban Residential areas.
- Auto-oriented character that can be offset with architectural standards, landscaping, and limited uniform subdivision designs.
- Neighborhood-scale commercial emerging over time for well-suited areas.

Figure 1. Future Land Use Map (FLUM)

See Attachment

The items below should be reviewed and addressed when a Future Land Use & Character map adjustment is proposed:

Scope of Amendment: Is the proposed map change limited to one or a few parcels, or would it affect a much larger area? *The amendment would affect approximately 52.54 acres, and should be considered large scale.*

Change in Circumstances: What specific conditions (e.g., population size and/or characteristics, area character and building form, property/structure conditions, infrastructure or public services, market factors including need for more land in a particular designation, etc.) have changed sufficiently to render the current map designation(s) inappropriate or out-of-date? *This amendment request is being spurred by a zoning request. The property owner intends to develop the property for single family residential use and then sell lots to homebuilders and other associated parties. Staff is unaware of any specific market conditions that require the need to remove this property from its current 'Suburban Residential' designation.*

Consistency with Other Plans: In addition to the Comprehensive Plan, is the proposed map change consistent with the intent and policy direction of any applicable small area plans, utility or drainage plans, or other City plans? *This request is not inconsistent with any other City planning efforts.*

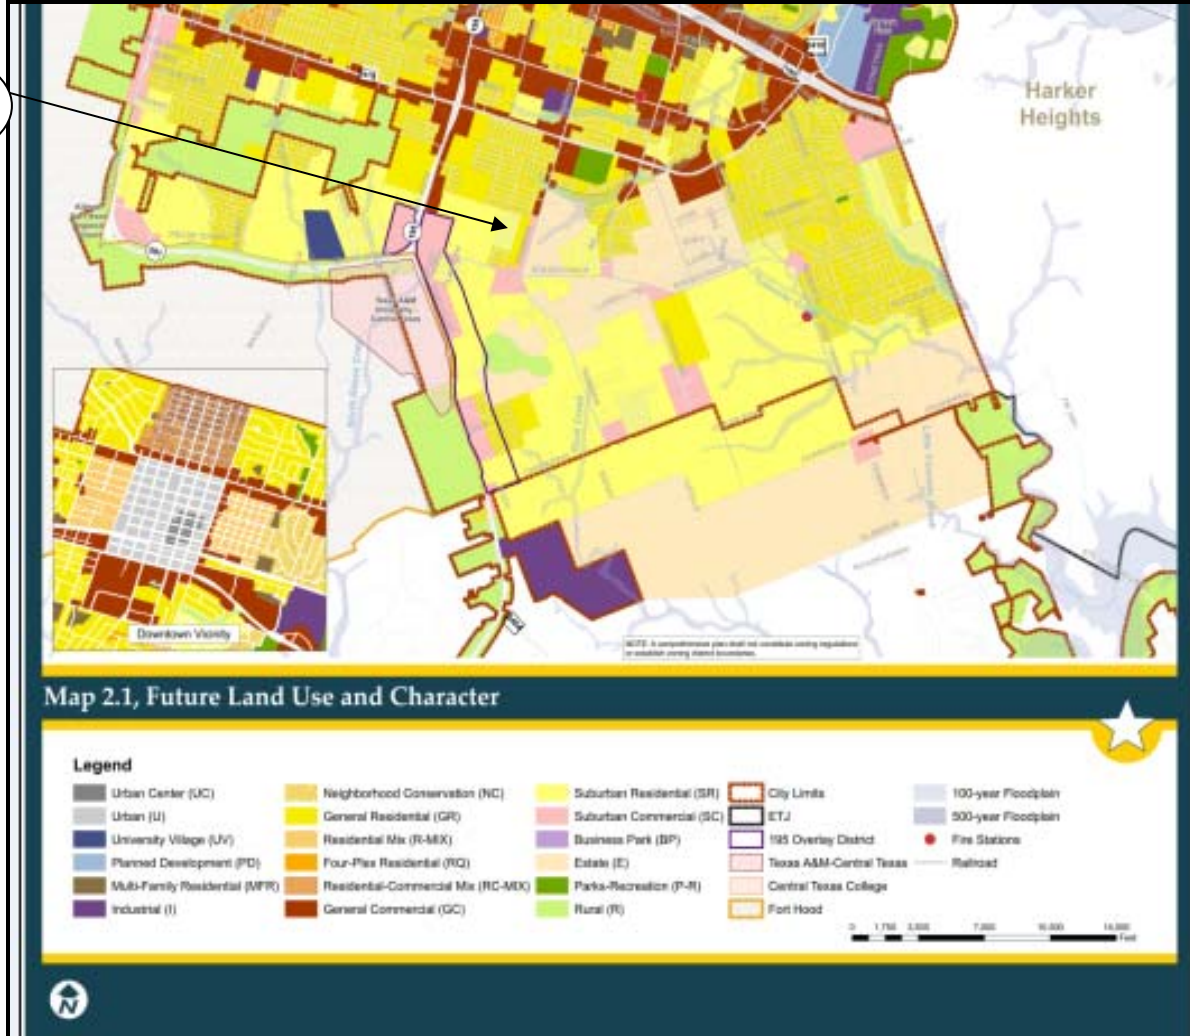

Adequate Information: Do City staff, the Planning and Zoning Commission, and/or City Council have enough and appropriate information to move ahead with a decision (e.g., utility capacity, potential traffic impacts, other public service implications, resident/stakeholder concerns and input)? *Staff does not have any information from the applicant regarding traffic impacts. Staff has notified surrounding property owners regarding the zoning request, and the Planning and Zoning Commission gauged their concerns regarding an amendment to the Future Land Use Map during a June 15th public hearing on the matter.*

Stakeholder Input: What points, concerns, and insights have been raised by area residents, property owners, business owners, or others? *The following individuals spoke in opposition to the FLUM amendment: Renate Reams of 6705 Alvin Drive; Greg Garrett of 6607 Rein Drive; Fidel Cabrera of 6603 Rein Drive; Kelly and Jason Sheets of 400 Atlas Avenue and Glenn Bauer of 6605 Rein Drive. The concerns voiced were: an increase in residential density, a lack of open space, "not sticking" to the Plan, too much residential development, lack of police officers to patrol, more homes placing a greater strain on schools and an increase in crime rate.*

Recommendation

The Planning and Zoning Commission recommended disapproval of amending the Future Land Use Map from 'Suburban Residential' to 'General Residential' by a vote of 5 to 3.

**PLANNING AND ZONING COMMISSION MEETING
JUNE 15, 2015**

**CASE FLUM #Z15-12
SUBURBAN RESIDENTIAL TO GENERAL RESIDENTIAL**

HOLD a public hearing and consider a request to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change a 'Suburban Residential' designated area to a 'General Residential' designated area for approximately 52.54 acres located along the north right-of-way of Stagecoach Road, approximately 420 feet west of Rein Drive, Killeen, Texas.

Chairman Frederick requested staff comments.

City Planner Tony McIlwain stated that this is a consideration to amend the Comprehensive Plan's Future Land Use Map (FLUM) to change a 'Suburban Residential' to a 'General Residential' designated area for 52.54 acres located along the north right-of-way of Stagecoach Road, approximately 420 feet west of Rein Drive, Killeen, Texas. Consideration of an amendment to the FLUM is necessary because of the applicant's request to rezone 52.54 acres from "A-R1" (Agricultural Single-Family Residential District) to "R-1" (Single-Family Residential District).

Staff recommended disapproval of amending the FLUM. While there are adjacent areas designated as 'General Residential', the Comprehensive Plan discusses balance, compatibility, and predictability as three key planning themes. Balance relates to more varied housing options; compatibility relates to preservation of housing values through quality community development and protection of neighborhood character; predictability involves everyone having a level of comfort knowing the type and nature of development that is likely to occur. The 'Suburban Residential' category of the Comprehensive Plan will promote a large baseline minimum lot size and greater setbacks when used in conjunction with the appropriate zoning district ("SR-1" *Suburban Single-Family Residential District*), thus satisfying the afore-mentioned key planning themes.

Chairman Frederick opened the public hearing.

The following residents spoke in opposition to the request to amend the FLUM: Ms. Renate Reams; Greg Garrett; Fidel Cabrera; Kelly and Jason Sheets; Glenn Bauer. The concerns voiced were: density, lack of police officers to patrol, more homes (which will) place an even greater strain on schools, increase in crime rate and a desire for more open space. Ms. Reams and Ms. Sheets also stated that they were informed by the police department that there are eleven City of Killeen police officers on each shift and are not enough police officers to go around.

Mr. Josh Welch spoke in support of the amendment and stated that he would ensure that the homes along the back of the homes on Rein Drive would be one-story homes.

With no one else requesting to speak, the public hearing was closed.

Commissioner Harkin asked to address the commission. Her comments were as follows:

“On June 3 the City of Killeen Planning Department mailed a letter to rezone property located to the west of Rein Drive and requested for the input of the residents residing in the surrounding area which I lived in since 1989. It has been a difficult week since the notification letter was received in my mailbox. I received two telephone calls and one email from city staff asking for me to consider signing an affidavit and abstain from voting due to a possible conflict of interest per Local Government Code section 171.1. I have requested a ruling from the State Attorney General’s Office pertaining to this matter.”

Commissioner Harkin asked that Mr. Frederick read the definition of Local Public Official?

Mr. Frederick read: *“Local public official” means a member of the governing body or another officer, whether elected, appointed, paid, or unpaid, of any district (including a school district), county, municipality, precinct, central appraisal district, transit authority or district, or other local governmental entity who exercises responsibilities beyond those that are advisory in nature.*”

Commissioner Harkin stated “I believe that the Killeen Planning and Zoning Commission is advisory in nature and has no authority to make a final decision; the final decision is the sole responsibility of the Killeen City Council. Based on the definition of Local Public Official none of the City of Killeen Planning and Zoning members are local public officials. I question if any other person that has served as planning and zoning commissioner in the past have voted to advise the city of Killeen City Council to approve or disapprove a zoning case for property that they owned?

I have no special interest! I have no relationship to the applicant or his company!

I was appointed to commissioner to fight to grow this city in a new direction. You are very familiar with me and know where I stand.

My vote is based on comp plan, FLUM, staff recommendations, community character and theme, the need and impact, along with the community’s input, as well as, past projects successes and failures.

Therefore, I will not abstain and continue to vote accordingly on this, as well as, future rezones.”

Vice Chair Dorroh motioned to recommend approval of the request to amend the FLUM. Commissioner Cooper seconded the motion. The motion failed 5-3.

Chairman Frederick stated that the FLUM amendment will be forwarded to City Council on July 14, 2015, with a recommendation to disapprove.

Request for FLUM Amendment

Subject: Bingle Rezoning Case

Charlotte,

The Comp Plan and amendment process has several factors the city should ensure, but two factors are the development compatibility and infrastructure availability surrounding a property. The proposed amendment for a zoning of R-1 better fits with the surrounding areas that have already been developed, and many infrastructure improvements have taken place - and are taking place - to support this amendment. This property also sits in close proximity to both KISD's Career Center and the University, which demand greater density than a suburban residential zoning. P&Z has previously approved a FLUM change and zoning request for R-1 on this property.

Here is how our request affects the Factors to Consider during plan amendment:

1. Consistency with the principles and policies set forth in the plan:
This amendment is consistent with the principles and policies set forth in the plan because it better fits with the surrounding developed property and because infrastructure is readily available.
2. Adherence with the Future Land use & Character Map:
The proposed amendment does adhere with the Future Land Use and Character because the plan is "a flexible document allowing for adjustment". As well, "Minor plan amendments may be proposed at any time".
3. Compatibility with the surrounding area:
The areas that currently surround the applicant's property are zoned R-1 and R-1A. A designation of R-1 is most compatible with the surrounding areas.
4. Impacts on infrastructure (water, wastewater, drainage, and transportation):
Infrastructure is currently in place to support this amendment.
5. Impact on City's ability to provide, fund, and maintain services:
This impact would not adversely impact the City's ability to maintain its services.
6. Impact on environmentally sensitive and natural areas:
There are no environmentally sensitive or natural areas to impact in this area.
7. Whether the proposed amendment contributes to the overall direction and character of the community as captured in the plan (plus ongoing public input):
The amendment does contribute to the overall direction and character of the community. This amendment would better support the growth of the KISD career center, future growth of the city, and better support the University.

CITY COUNCIL MEMORANDUM

AGENDA ITEM

FY 2015 JAG Grant Award

ORIGINATING DEPARTMENT

Police Department

BACKGROUND INFORMATION

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program continues to provide agencies with the flexibility to prioritize and place justice funds where they are needed most. The program award is allocated through an Interlocal agreement between Bell County, the City of Killeen, and the City of Temple. The program provides single funding to grantees with no requirement for matching or local funds. Funds granted under the JAG have a four-year window for expenditure. All entities must agree to the reallocated amounts of the funds to receive the grant award.

DISCUSSION/CONCLUSION

JAG funding for Fiscal Year 2015 is \$74,170. An agreement has been made to distribute the program award as follows: City of Killeen \$37,456, City of Temple \$16,688, and Bell County \$20,026.

The City of Killeen has been chosen to apply for the JAG award and submit the application for all parties involved. The City of Killeen is responsible for the administration of the funds including distributing the funds, monitoring the award, submitting performance reports and assessment data, and providing ongoing assistance to any sub-recipients of the funds.

The Killeen Police Department anticipates purchasing equipment: body-worn video cameras and supportive technology to implement the video system.

FISCAL IMPACT

The City of Killeen's revenue will be recorded in account 207-0000-201.00-00 JAG (Byrne) Grant 15/16. The City of Killeen's expenditures will be accounted for in account 207-0000-495-61-52 Equipment - 15 JAG Byrne Grant. The city will administer the other entities' funds through account 207-0000-214-00-00 Due to Other Governments.

The proposed project period is from October 1, 2014, to September 30, 2018. There are no matching funds required from the recipients.

RECOMMENDATION

Staff recommends that City Council approve the submission of the 2015 Edward Byrne Memorial Justice Assistance Grant through the Killeen Police Department on behalf of all parties involved, to permit the Killeen Police Department to allocate and administer the duties required by the grant, under the oversight of the City's Grant Administrator, and to approve the Interlocal agreement with Bell County and the City of Temple.

- a. COUNTY will receive \$20,026 or 30%
- b. KILLEEN will receive \$37,456 or 45% and
- c. TEMPLE will receive \$16,688 or 25%.

All amounts have been rounded in accordance with accounting principles. Should the amount of the award change in any way, the parties agree that division of the award will be by the percentages listed above and not the dollar amounts listed.

CITY COUNCIL MEMORANDUM

AGENDA ITEM

AUTHORIZE THE AWARD OF A CONSTRUCTION CONTRACT (BID 15-16) TO RM RODRIGUEZ CONSTRUCTION, LP FOR THE CONSTRUCTION OF THE KILLEEN FORT HOOD REGIONAL TRAIL (SEGMENT 3) PROJECT.

ORIGINATING DEPARTMENT

PUBLIC WORKS - TRANSPORTATION DIVISION

BACKGROUND INFORMATION

In cooperation with the Federal Highway Administration, the Texas Highway Commission issued a call for project nominations for the statewide Transportation Enhancement Program (TE) on August 30, 2012. The call began on September 14, 2012, and closed on November 16, 2012. In two previous project calls, the City of Killeen (COK) had secured funding for two (2) hike and bike trails. Those projects (CCM/R 12-091R) have been extremely successful and beneficial to the City of Killeen.

On July 26, 2013, the City received notification that it had been selected to receive \$1,455,498 for a TE award. The City of Killeen's proposed project ranked fourth out of 81 prospective projects submitted to the Texas Department of Transportation (TxDOT). On February 11, 2014, the City Council authorized a reimbursement resolution (CCM/R 14-023R) which included funding for the Westside Trail (Killeen Fort Hood Regional Trail Segment 3) project. On March 25, 2014, City Council authorized entering in an advance funding agreement (CCM/R 14-035R) with TxDOT for the TE award as documented by the Transportation Enhancement Program.

DISCUSSION/CONCLUSION

The City advertised for bids on April 19, April 26, and May 3, 2015. On May 21, 2015, bids were opened and read aloud for the construction of the project. There were four (4) bids submitted for the project: RM Rodriguez Construction, LP, of Temple, in the amount of \$2,109,000.00; Westar Construction, Inc., of Georgetown, in the amount of \$2,292,731.60; TTG Utilities, LP, of Gatesville, in the amount of \$2,293,940.17; and Unified Services of Texas, Inc., of Southlake, in the amount of \$2,769,228.13. All bidders completed the following: Bid Bond/Security, Conflict of Interest Questionnaire (CIO), and the Certificate Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion. The apparent low bidder is RM Rodriguez Construction, LP, in the amount of \$2,109,000.00. (See bid tabulation.)

FISCAL IMPACT

Funds for this project in the amount of \$2,109,000 are available in the Killeen Fort Hood Regional Trail (Segment 3) Project account, 348-3490-800.58-81.

RECOMMENDATION

City staff recommends the City Council award a construction contract to the lowest responsible bidder meeting the specifications, RM Rodriguez Construction, LP, in the amount of \$2,109,000 dependent on TxDOT concurrence.

RE: Killen-Ft Hood Regional Trail (Segment 3) –Award Recommendation Letter

Mr. Lueck,

We have reviewed the current workload and construction history of RM Rodriguez Construction, LP and contacted numerous references. The City of Temple, Catholic Diocese of Austin and the Holy Trinity Catholic High School all provided exceptional reviews as RM Rodriguez appeared timely, adhered to budget, and provided quality work. Despite RM Rodriguez's minimal experience in TxDOT Local Government Project Procedures, both Rene Rodriguez (Owner) and Karen Allums (PM) have stressed their understanding and familiarity with the necessary requirements set forth by TxDOT and FHWA. As a result of our findings, we recommend that a contract be awarded to RM Rodriguez Construction, LP in the amount of \$2,109,000.00 as the lowest responsive bidder for the Killeen-Ft Hood Regional Trail (Segment 3) Project. If you have questions, please call.

Sincerely,

HALFF ASSOCIATES, INC.

CITY COUNCIL MEMORANDUM

AGENDA ITEM

Budget Amendment to Fund Killeen Fort Hood Regional Trail, Segment 3

ORIGINATING DEPARTMENT

Public Works

BACKGROUND INFORMATION

In cooperation with the Federal Highway Administration, the Texas Highway Commission issued a call for project nominations for the statewide Transportation Enhancement Program (TE) on August 30, 2012. The call began on September 14, 2012, and closed on November 16, 2012. In two previous project calls, the City of Killeen (COK) had secured funding for two (2) hike and bike trails. Those projects (CCM/R 12-091R) have been extremely successful and beneficial to the City of Killeen.

On July 26, 2013, the City received notification that it had been selected to receive \$1,455,498 for a TE award. The City of Killeen's proposed project ranked fourth out of 81 prospective projects that were submitted to the Texas Department of Transportation (TxDOT). On February 11, 2014, the City Council authorized a reimbursement resolution (CCM/R 14-023R) which included funding for the Westside Trail (Killeen Fort Hood Regional Trail Segment 3) project. On March 25, 2014, City Council authorized entering in an advance funding agreement with TxDOT for the TE award as documented by the Transportation Enhancement Program (CCM/R 14-035R).

DISCUSSION/CONCLUSION

The City of Killeen approves the CIP budget along with the Annual Budget and Plan of Municipal Services in September on an annual basis. Staff provides estimates based upon the best available information at the time, and the budget periodically needs to be amended as more accurate information becomes available. Changes in scope, schedules, or the project having remaining funds due to favorable bids or not enough funds due to unforeseen events requires that a budget amendment be approved by City Council. City Staff is recommending the City Council award a construction contract to the lowest responsible bidder meeting the specifications, RM Rodriguez Construction, LP, in the amount of \$2,109,000. Additional funds are needed to cover related expenditures and change orders for the Killeen Fort Hood Regional Trail - Segment 3 (Westside Trail) project.

FISCAL IMPACT

Funds in the amount of \$256,000 will be transferred into Fund 348 via a residual equity transfer. Due to timing of the budgeting process, it was uncertain what amounts would be expended out of the 348 fund during FY 13-14; therefore, there is currently a reconciliation difference between the two budgets that needs to be corrected. This budget amendment consolidates the funding into the Fund 348.
