

ATTACHMENT A

REQUEST TO PLACE ITEM ON THE AGENDA (Per Section 1-20 of Governing Standards and Expectations)

Requestor(s): Councilman Steve Harris

Date: 28 December 2020

Problem/Issue/Idea Name for Agenda:

Inadequate Lighting in Pre-existing Areas and Neighborhoods

Description of Problem/Issue/Idea:

Systematically install lamps in areas designated by staff and council as, "areas in need of extra lighting" to increase consistent visibility, safety/quality of life. This plan would identify low lit areas, including parks, and neighborhoods that will benefit from extra lighting to promote increased visibility and overall safety to the areas identified. Also, to act as a deterrent to criminal activities.

Requested Action:

Instruct staff to create a streetlamp post installation plan.

***Note:** In my discussions with and ONCOR representative, the effort to install streetlamps in pre-existing areas would be minimal as the infrastructure for the new poles is already present and a minimal amount of work would be required.
