SUBJECT: Consider an Ordinance Amending Chapter 26

BACKGROUND AND FINDINGS:

The City is currently working to update the City's municipal code, additional ordinance revisions are proposed to meet needed updates. The revisions have been presented in several Stakeholder meetings earlier this year. These meetings include the latest that was held on October 24th as directed by the City Council. The revisions address the fact that engineering is no longer within the Public Works Department and clears up the code as it relates to the standard processes performed by staff. Additional revisions include pavement widths that better conform with the recently adopted comprehensive plan, and formal clarifications to sidewalk construction within the public right of way. The current proposal also includes the requirement for the establishment of Homeowners Associations with new residential developments, and a requirement for street trees to be installed with all new public roadways.

The proposed revisions to Chapter 26 will allow the City to better manage the design and construction of the its infrastructure and provide clear and consistent guidance to developers.

THE ALTERNATIVES CONSIDERED:

1. Take no action
2. Request a modification or further studies to the proposed ordinance change
3. Approve the ordinance to amend Chapter 26, Subdivisions and Other Property Developments of the City of Killeen's Code of Ordinances

MC3.4 Update development regulations to require developers to construct a network of shared use paths and sidewalks within development and complete connections to adjacent/nearby facilities.

MC6.4 Update design standards to reduce pavement and lane widths to reduce maintenance and construction costs and slow cars down to improve safety.
