**BACKGROUND AND FINDINGS:**

In 2022, the City of Killeen completed a ten-year sanitary sewer overflow initiative agreement with the Texas Commission on Environmental Quality to find and fix infrastructure deficiencies throughout the City’s wastewater system. On March 14, 2023, City Council approved a sewer flow monitoring study (Resolution No. 23-047R) which is the foundation of a new ten-year program to evaluate and rehabilitate deficiencies in the wastewater collection system.

This new ten-year series of wastewater evaluation and rehabilitation projects, which is part of the 2019 Water and Wastewater Masterplan (Project 9S), will begin with Phase 1 of a sanitary sewer evaluation survey (SSES).

Pipeline Analysis, LLC, has submitted a professional services agreement that includes the evaluation of 1,172 manholes/cleanouts and 327,549-feet of wastewater mains. This SSES includes smoke testing, dye flood

testing, and closed-circuit television inspection to locate defects, establish least cost repair estimates, and prepare a rehabilitation plan.
