## **Infrastructure and Community Facilities**

### **Water, Sewer and Drainage Services:**

Provider: City of Killeen

Within Service Area: Yes

Feasibility Study or Service Commitment: Water, sanitary sewer, and drainage utility services will be required for future development of this site. Water service is available directly to the property via a 6" and 12" water main located to the west of the tract, within the Trimmier Road right-of-way. Sanitary sewer service is currently not directly available to the property and may need an on-site septic facility for wastewater. There is a future CIP project identified in the 2012 Water and Wastewater Master Plan to extend gravity sewer to this basin, but there is no definitive time for construction of this project. Sanitary sewer availability and design requirements will need to be evaluated when more information is known.

The property owners and their agents are cautioned that unknown or unforeseen site conditions may require remedial action to provide safe and adequate water, sewer, or drainage service to the property. Further, City of Killeen development regulations require that capacity analyses related to development of the property are the sole responsibility of the owner. The owner or his agents, acting as the permit applicant for the subject property, shall coordinate tie-in to all publicly dedicated infrastructure with the Public Works Department.

### **Transportation:**

Existing conditions: Trimmier Road is classified as a 90' minor arterial on the City's adopted thoroughfare plan.

Proposed Improvements: There are no planned transportation improvements as part of this zoning request.

Projected Traffic Generation: There will be a marginal increase in traffic as a result of this consideration.

### **Environmental Assessment**

**Topography/Regulated Floodplain/Floodway/Creek:** This site does not lie within a FEMA regulatory Special Flood Hazard Area (SFHA).

### **Land Use Analysis**

**Land Use Plan:** The land is designated as 'Estate' on the Future Land Use Map (FLUM) of the Comprehensive Plan.

**Plan Recommendation:** The Comprehensive Plan allows the following development types within the 'Estate' designation: detached residential dwellings, public/institutional uses, and parks, and public spaces.

**Consistency:** The applicant's request is consistent with the FLUM.

### **Public Notification**

The staff notified eight (8) surrounding property owners regarding this request. Staff has received no protests.

### **Recommendation**

The Planning & Zoning Commission recommended approval of the applicant's zoning request by a vote of 7 to 0.
