Zoning / Plat Case History:

- The property was re-platted in 1985 and is identified as Lot Pt. 6, 7, Block 6, North Side Addition

Character of the Area:

The surrounding area is made up of commercial properties. Adjacent land uses are as follows:

- To the north, south and east are commercial properties zoned "B-3" (Local Business District).
- To the east is commercial property zoned "B-5" (Business District).

Future Land Use Map Analysis:

This property is designated as 'Residential-Commercial Mix' (RC-MIX) on the Future Land Use Map (FLUM) of the Comprehensive Plan. The 'Residential-Commercial Mix' (RC-MIX) designation encompasses a range of mix residential types and a variety of commercial and light industrial activities. Characteristics of this designation are areas that were allowed to develop in the past with non-residential uses (including uses with a heavy commercial and/or industrial intensity) intermixed amid a variety of residential uses, often with minimal screening and/or buffering, auto-oriented character and address compatibility and screening/buffering, where possible as redevelopment occurs. The 'Residential-Commercial Mix' (RC-MIX) designation encourages the following development types:

- Mix of residential types and densities; and
- Variety of commercial and light industrial activities.

Staff is of the determination that the zoning request is consistent with the Comprehensive Plan.

Water, Sewer and Drainage Services

Water, sanitary sewer and drainage utility service is located within the City of Killeen utility service area and available to the subject tract.

Transportation and Thoroughfare Plan:

Ingress and egress to the development is via North 8th Street and East Dean Avenue, which are defined as a 60' Local Street on the City of Killeen adopted Thoroughfare Plan. This proposed development will replace a vacant building.

A typical Automobile Care Center can generate twenty-six (26) vehicle trips per day during operating hours [note-this data is sourced from the Institute of Transportation Engineer (ITE) Trip Generation Rates-9th Edition, provided through Spack Consulting].

Public Notification:

Staff notified forty-eight (48) surrounding property owners regarding this request. As of the date of this staff report, no responses have been received. Twenty-five (25) property owners reside outside of Killeen. Twenty-seven (27) of the forty-eight (48) notified are outside of the 200-foot notification boundary required by the State but within the 400-foot notification boundary required by Council.

Staff Findings:

Staff finds that the proposed use is consistent with the surrounding property uses and is compatible with the existing land uses and prevailing community character. If approved, approximately 0.1157 acres of land would be rezoned.

THE ALTERNATIVES CONSIDERED:

The City Council has two (2) alternatives. The Council may:

- Recommend disapproval of the applicant's request; or
