Sec. 31-256.9. - Planned Unit Development (PUD) required.

- (a) A Planned Unit Development (PUD) as provided in Chapter 31, Article V, Division 8, Killeen Code of Ordinances shall be required for any request for an "R-3F" and/or "R-3A" district when the total acreage of the request alone, or when the total acreage of the request combined with all adjacent areas zoned "R-2", "R-3", "R-3F", and "R-3A", and/or areas within a two-thousand feet radius of any of the property seeking to be rezoned, consist of twenty-five (25) acres or more. The purpose for requiring a PUD is to provide the Planning and Zoning Commission and the City Council with the ability to determine the proposed development's impact on surrounding properties, existing infrastructure and

open/recreational space and also to determine whether additional public improvements to serve denser multifamily development are necessary to promote the health, safety and welfare of the development's residents.

- (b) Properties are considered adjacent and subject to the computation of this section if they are continuously zoned for multifamily and/or two-family residential use regardless of ownership, property lines, easements or rights-of-way.
- (c) The applicant shall provide any public infrastructure beyond the city's minimum development standards that is required to service the proposed development, including open/recreational space and oversized water, sewer and drainage facilities and greater street widths.
- (d) The applicant is responsible for determining whether or not a PUD is required. However, if the Director of Planning and Development Services determines at any time that a PUD is required and one was not submitted the applicant shall be informed in writing and they shall either modify their application to include the PUD or withdraw the application and have all associated application fee(s) returned.

A Planned Unit Development (PUD) is a land use design incorporating the concepts of density and common open space. Common open space shall include, but is not limited to, community amenities such as parks, gardens, pedestrian trails, recreation areas, and usable undisturbed, natural areas. The PUD designation serves as an "overlay zoning and development classification." In this capacity, the designation permits specific negotiated development regulations to be applied to the base land use zoning district(s) in which the property is located. When a parcel of land receives a PUD designation, the entire parcel must be assigned one or more standard zoning district classifications. However, the added PUD overlay classification enables the developer of the site to request that specific land use development regulations be applied to his development site. Such specific land use and development regulations shall not take effect until they are reviewed, public hearings held and approved by both the Planning and Zoning Commission and the City Council.
